

BOARD OF TRUSTEES.

The Board of Trustees held their regular meeting last evening, all the members being present.

The minutes of the last meeting were read and approved.

The first matter considered was the protest against the district for the improvement of the lower end of Shattuck avenue. Mr. Lockyer appeared and again urged the injustice of being assessed twice for the macadamizing of Shattuck avenue, he having been assessed once already and being in the assessment district for the contemplated improvement of the street from the old charter line to the south boundary line. The protest was sustained.

The Allston way culvert district was briefly considered and on motion of Trustee Stubenrauch, seconded by Trustee Whiting, a resolution was adopted declaring the intention of the Board to do the work on the district plan, the district to extend 135 feet each side of the street, Trustee Jones voting in the negative.

The Finance Committee reported that they had examined the report of the treasurer and found it correct.

The application of C. W. Young for a free license to peddle matches was denied.

The protest of Mary A. Townsend against the district to be assessed for the widening of Shattuck avenue at Haste street was considered, Charles Townsend appearing for the contestant. The protest was overruled.

A protest was filed against the grading and macadamizing of Alcatraz avenue. It was signed by property owners possessing more than one-half of the frontage on the line of the proposed improvement. Under the law the protest was laid over one week, when the time will be fixed for hearing the protestants.

The town attorney rendered an opinion that the franchise for the railroad on San Pablo avenue had been regularly rescinded and the Board had the right to take this action and could proceed with the improvement of the street.

Mr. Lingard made enquiry as to the condition of the Grove street opening and one of the commissioners explained that one of the parties owing a piece of the land to be taken had refused to make the deed, but that hopes were entertained that he would recede from this conclusion. He was in the East but expected back any day. Should he still persist in this determination a report will be made to the Board and it can decide whether to bring suit or not.

Attention was called to a petition for an electric light on the corner of Grove and Stewart streets, and after some discussion it was decided to grant the application.

President Acton called Trustee Jones' attention to the need of action on the licenses. He made a motion to that effect and it was seconded by Trustee Hadlen. Trustees Whiting,

and Stubenrauch advocated considering the question in a Committee of the Whole. The motion was changed and passed to the effect that the Board meet as a Committee of the Whole.

Messrs. Lamb & Company were granted permission to construct by private contract a sewer in Adeline street from Prince to Woolsey.

W. G. Sanborn asked the Board to accept Virginia street from Shattuck avenue to Milvia street. Mr. Sanborn explained that the law was directory in this matter and the effect of such acceptance would be to throw the burden of the care of the street upon the town. Referred to the Street Committee.

Michael Heafey asked permission to use the hose of the Fire Company. The matter was referred to the Marshal with power to act.

F. B. Wilkins applied for a free license to conduct a bicycle outfitting store, it was granted for three months.

The Clerk reported that he had a deed from the Oakland Gas Light and Heat Company for the property required to open and widen Fourth street. The deed was accepted by resolution, the Attorney having reported that the deed was in proper shape.

The bonds of J. M. Fox and J. M. Doyle as commissioners for the opening of Haste street were approved.

The Assessor and Marshal made requisition for new assessment and delinquent tax book and they were referred to the Finance Committee with power to act.

Resolutions of intention were passed as follows:

For a concrete culvert in Allston way from Shattuck avenue east to the land of H. Law, fixing the district 135 feet each side of the length of the improvement; for a sewer on Stanford avenue from Parker to Blake street.

A petition to lay, by private contract, a wooden sidewalk on the west side of Tremont street from Prince street to Woolsey was granted.

The appeal in the matter of the construction of the sidewalk on the north side of Ashby avenue made by B. T. Beyen was overruled.

The Finance Committee reported favorably upon the following bills which were ordered paid:

ROAD FUND.

L. Rock.....\$ 4 00
J. O'Reefe.....2 00

GENERAL FUND.

T G Brotherton.....\$70 40
Richard Meyer.....1 40

J J Mason.....15 00
J T Kelley.....5 00
Philo Mills.....5 00
The Board then adjourned.

The Election in Oakland.

When the returns of the Oakland municipal election commenced to come in last night it was apparent that John W. Davie would be the next Mayor of Oakland. The vote of the city was 8763, divided up in the wards as follows: First, 1192; Second, 1407; Third, 1214; Fourth, 1380; Fifth, 968; Sixth, 1221; Seventh, 1381. The total vote of the city in 1893 was 8529.

When the early returns were received Davie led his opponent, Nelson, by almost 2 to 1. As the evening wore on the lead was reduced considerably, but it was apparent that Nelson was out of the race. At 11 o'clock the partial returns gave Davie 2300 and Nelson 1850. Davie kept his lead well, and it is estimated that he will have a majority of over 600.

The Waterloo for Nelson was a complete surprise to his friends, as they supposed that he was getting the silent vote of the city. This, however, did not turn out to be the case. In the Fifth and Third wards, where Nelson was supposed to have the support of the church people, he failed to poll such a vote as would give him a working majority. Davie seemed to have a hidden support that did not develop until the votes were counted.

R. W. Snow, Non-Partisan and Republican is elected Auditor by a good majority. His opponent, Alexander Rosborough, made an excellent run.

The vote on City Treasurer was rather close. Gilpin, the Republican, will probably win the contest by a small majority. Burpee, the Non-partisan, made a close run.

J. C. Pierson, Republican and Populist, is probably elected City Attorney by a good majority.

The fight for City Engineer, narrowed down to Arthur Wilson, Republican, and Ross Morgan, Non-partisan. At mid-night Wilson had the best of the fight.

There were four Councilmen-at-large to be chosen and sixteen candidates were in the field. The election of John Towle and J. R. Capelle is conceded. The fight for the other two Councilmen-at-large is between W. D. Hartmann, Albert Kaiser, J. M. Bassett, William Winnie and D. S. Moulton.

The indications, at midnight point strongly in the election of Councilmen from the wards as follows: First ward, Frank Moss, Second ward, H. B. Mahan, Third ward, Walter Menzel, Fourth ward, Con Brogan, Fifth ward, Dr. W. O. Buckland, Sixth ward, William Watkinson, Seventh ward, William A. Dow.

The Nonpartisans have secured a majority of the City Council. The members of the Board of Education at large will probably be B. E. Clement, Dr. Mira Knox, Colonel George

C. Edwards and John W. Evans. The members of the Board of Education from the wards will not be known until the count is completed. The same may be said of the Library Trustees.

Important California Invention.

Etta R. Shaw of Los Ga'os has invented a machine for evaporating purposes. It was first used to condense grape juice and its success caused it to be tried on sugar beet juice, which has also proved a success. The patent has been purchased by the Oxnards of the best sugar syndicate.

Mrs. Shaw's machine is simple, consisting of a long hollow cylinder—perhaps 50 or 100 feet long, according to circumstances. This has a steam jacket, and there is an apparatus for blowing a current of cold air through the cylinder. The latter is given an almost horizontal position being tilted just enough to let the juice flow slowly from the upper to the lower end. A rotary motion is given the cylinder, and it is found that the amount of evaporation which can be accomplished by this process is greater in proportion to coal consumption and other items of expense than in any other way.

To Sweeten the Breath.

A woman who adores onions and says she would eat them anyhow because of their salutary effect on her complexion avers that the scent can be entirely removed, no matter how they have been served, if you drink a cup of black coffee immediately after eating them. She says, also, that a clove or wintergreen cream will remove the smell of wine from the breath, and that she uses a gargle of camphor and myrrh if she gets the idea that her breath is the least bit tainted.

The debt of Newfoundland is reported to be so great that its financial salvation only lies in its being taken into union with the Dominion of Canada.

Oakland is overrun with beggars of all descriptions. They have got to be so bold that upon a refusal of their demands they insult a person. What are the police going to do about it?

William Brown and Norra Boggs ran away from Albina, Oregon, and came to San Francisco to get married. Being under the legal age no one would perform the ceremony. While waiting for the nuptial tie to be made, a former lover of the girl put in an appearance, and she went off with him on an overland train. Brown will now return home lonely, perhaps, but somewhat wiser.

An alleged illegitimate son of the late James G. Fair has put in an appearance and wants some of the ducats which his alleged father was so successful in hoarding. There is a good morsel ahead for those who enjoy this kind of reading matter when the matter gets to be examined by the court.

Lime-Klin Philosophy.

"What I was gwine to remark," began the old man as Elder Toots got his feet drawn back under the bench, "am to de effect dat one-half ob de solid injoyment I could take in dis world if let alone am spilt by a set ob men whom I airnestly hope de nex' ginerashun will cast into de sea. I can't pick up a paper widout bein' startled by de announcement dat we eat too much, sleep too little, sit up too late, go to bed too airly, dress too warm or too cold—walk too much or too little. De croakers am constantly at work to put de rest ob us on de ragged aige ob anxiety. One day we hear dat consumpshun has become our nashunal complaint. Nex' day it am predicted dat de few-el supply ob de world am runnin' short. Nex' fing we h'ar ob am de statement dat de aiverage ob human life am growin' shorter, or dat eight men out ob ten hab liber complaint, or dat a comet am 'proachin' de airth. Dar's suthin' bein' hunted up an' shot off at us ebry day in de y'ar, an' it hab got to dat pass dat de man who lies down at night dreads dat he may nebber see de moon again, an' he gets up to wonder if de conflagrashun gwine on in de sun won't burn up his garden truck befo' night. I has been finkin' all dese fings ober. I has bin worried an' harrassed an' half scart to death ober drift period, de credicted climatic changes, de astronomical changes an' de sudden diskiveries dat human life am shortenin' up like an ole clothes line on a rainy day. I has got to dat pitch dat I'm goin' to sot down in my cabin wid a pan ob apples on de right han' an' a pan ob popcorn on de left, an' let de world turn bottom up an' be hanged to her. If white folks want to go on worryin' ober science an' philosophy an' predick-shuns an' prophecies, let 'em do it; but my advice to de cull'd race am to worry ober nuffin, higher 'n de roof ob a house or deeper down dan de bottom ob a cellar. When your day's work am done, sot down in de big cheer, light yer pipe, an' let de chil'en an' de dog loose fur a good time."

WORDS OF WISDOM.

Labor is Nature's physician.—Galen.

Cant is useful to provoke common sense.—Emerson.

The best thing is to do the present thing well.—Pittacus.

I would rather make my fortune than expect it.—Seneca.

To enjoy the pleasure of wealth, thou shouldst first experience the fatigue of labor.—Chinese Maxim.

It will be found that they are the weakest-minded and the hardest-hearted men that most love change. Ruskin.

He who neglects to perform the duties of this life is not fit for this world, much less for any higher world.—Bhagacadgita; Hindu.

TUESDAY, MARCH 12, 1895.

THE LIEU LAND JOB.

It is well that Governor Budd is taking time to consider the Coleman bill to amend section 3398 of the Political Code, the object of which is to surreptitiously confirm the title of a ring of land grabbers to a vast amount of public land, estimated to be over 300,000 acres. Every hour and every day that the Governor delays will enable him to learn more of one of the most cunning and one of the most infamous schemes ever devised in this State, and that is saying a great deal.

When the Governor has finished his investigations, which will be, of course, before the time expires for him to act upon the bill, he will have discovered how prudent and how wise it was not to sign the bill when it was first rushed down to him after the ring succeeded in getting it through the Senate. By pausing to obtain information he has enabled himself to learn how near he came to being used by pretended friends who are in the pay of the ring. He will, of course, veto the infamous bill and thwart the ring; at least every honest citizen who has confidence in the Governor's intelligence and integrity expects that he will interfere to prevent the consummation of the fraud.

The matter has been so well aired in the *Chronicle* that it is scarcely necessary to go over the details again. It may be assumed that the Governor and the general public now understand the scheme fully, as the Legislature did not, unless it is to be admitted that the influences were so strong as to prevent an exposure of the job.

In a word, the Coleman bill is designed to relinquish to the United States the title of the State to all of the 16th and 36 sections granted to the State for school purposes, which are included in the extensive Government reservations, in order to obtain from the Land Department of the United States a confirmation of the title to lands which have been selected by the State Surveyor General in lieu of the reserved school sections. The Surveyor-General has and has had that power all along and the pretended amendment to the section of the code does not propose to change or modify his authority; the change in the section as proposed is a mere subterfuge in order to smuggle the confirmatory clause through.

But this does not explain the job, the grab, the steal—for it is nothing less. That the State should desire to obtain "lieu" lands for the school sections included in the United States reservations would seem to be all right. For years and years the State has been endeavoring to obtain the listing of the lieu land selections. But a person not familiar with the operations of the ring would suppose

that until the lands can be and are actually listed to the State no entries of such lands could be made in the State Land Office. Not so, however. The lieu land ring has been permitted to locate the lieu land selections in anticipation of the listing of the land to the State by the United States Land Department.

The whole scheme ought to be ripped up. There is no principle of law or justice that will warrant the entry or sale of lands to which the State has not yet acquired a title. When the lieu land selections are relinquished to the State by the protest technically known as listing they should be thrown open to the general public for entry and sale.

A curious story has come to light since the exposure of the job which followed the passage of the Coleman bill in the Senate. It seems that early in January of this year a ruling of the Commissioner of the General Land Office at Washington, which was favorable to the lieu lands ring, was reversed by the Secretary of the Interior, who held that the State could not select lands in lieu of school sections included in the forest reservations.

This decision was not, however, formally announced, but was held in abeyance at the instance, it is said, of Senator Perkins, the object being to obtain legislation in California which would warrant the Interior Department in confirming the lieu lands selected by the State.

The whole movement was in the interest of and for the purpose of aiding the ring of land-grabbers who engineered the Coleman bill through the Legislature and who are striving to induce the Governor to approve it. Under these circumstances, what will Governor Budd do?—*S. F. Chronicle*.

MAKING A HOME MARKET.

When the manufacturers of California come to consider in details the problem of finding at home a market for their goods they must not overlook the fundamental truth that there can never be a market for goods that there can never be a market for goods that are not known to the consumer. Local patriotism and enlightened public sentiment can do much to foster, encourage and support California industries, but the people must first know that the industries exist. The Californian most loyal to California products can hardly be expected to order California goods.

The trade journals of California show a rich array of Eastern advertising, but a very scant amount of advertising by California producers. The merchant must of necessity purchase those things that are advertised for he does not know of the others, nor do his customers. In this way the Eastern dealers get the Pacific Coast market, not because Pacific Coast people prefer Eastern goods but because they have no choice. The proposition is too plain to require extended argument. The simplest statement of the case is sufficient. No possible public sentiment can get people to buy goods they never heard of. Our manufacturers must support their trade journals. They must advertise.—*S. F. Call*.

John L. Sullivan on being recently asked what "struck him most forcibly in this world" replied "Corbett's fist."

Attempted Burglary.

Yesterday morning long before daybreak a man entered the house of Mrs. P. Vollner, corner of Lincoln and Louisa streets, with the evident intention of robbery. The first thing known of him was when he had Mrs. Vollner clutched by the throat. She screamed so loud that the man became alarmed and hastily got out of the house. His sudden departure prevented him from getting anything of value. It is supposed that the burglar got out of town on the early morning train.

Mrs. James Spiers of Berkeley gave a dinner party recently at which the following guests were present: The Misses Eleanor Wood, Julia Crocker, Ida Gibbons, Ethel Lincoln, Ella Morgan, Evelyn Norwood, Miss Schussler, Alice Schussler, Katherine Spiers, Morton Gibbons, James Spiers Jr., Mr. Houston, Professor George M. Richardson, Frank King, Professor Sanford and William Spiers.

Oakland has got among its list of subscribers to the new railroad the names of residents of Berkeley. The Directors of the road want the string tied to these subscriptions cut loose. Oakland says all business must be done through the Terminal Committee.

A Hull house is to be established in Oakland. A house has been secured on the corner of Eighth and Wood streets. It is to be called the Manse. It will be for entertainment and education.

A Strecker made the unusual score of 2214 out of 2500 with a rifle at 200 yards at Shell Mound Park on Sunday.

St. Patrick's Day will soon be here and will be celebrated in the usual manner by the Sons of Ireland.

Just now the kite fad is in full force in Berkeley.

An ancient volcano, the peak of Orizaba, in Mexico, is in a state of eruption. For a distance of 100 miles about it the shaking of the land can be felt. There is much alarm in the neighboring cities of Cordoba, Orizaba, Kalapa, as well as in the many little villages near by. Thick ashes rolling down the side of the mountain has set the grass on fire, which adds to the volume of smoke coming out of the crater. A commission of scientists will be sent by the Governor of Vera Cruz to make an examination and report the same.

On Saturday the Senate restored to the original amount all of the salaries of the different county officers, except the Sheriff. If by the time the bill passes both Houses and is signed by the Governor they are not all raised above the amounts heretofore paid the public will be very fortunate.

Another attempt is being made to vote the public treasury through the channel of a Board of Architects. Were the Legislature to adjourn today it would save the State a couple of millions of dollars.

The Japanese have won another victory of pretty good size. They captured the coast forts near Yinkow, the port for New Chang. The Chinese force is said to have consisted of 10,000 men.
